

THE 86-INCH HOLOGRAPHIC BOX

Model: HS86 – ITB

Introduction:

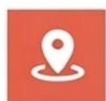

- ✓ Uses **IPS hard screen technology**, providing a wide viewing angle, fast response time, and high color accuracy.
- ✓ Equipped with a **4K high-transmission display screen**, delivering clearer and more vivid image quality.
- ✓ **3840×2160 ultra-high resolution**, ensuring detailed and sharp picture performance.
- ✓ Panel protection uses **5 mm ultra-white crystal tempered glass** with up to **98% transparency** and **6H surface hardness**.
- ✓ Designed for **24/7 continuous operation** in commercial environments.
- ✓ Compatible with **multiple media formats**, including images, videos, and 3D holographic content.
- ✓ **High brightness and contrast ratio** ensure clear holographic effects even in well-lit environments.
- ✓ **True depth illusion with advanced transparent glass technology**, delivering a highly realistic 3D holographic visual effect.
- ✓ Products appear to **float in the air without visible physical support**, creating a Captivating holographic presentation.
- ✓ Ideal for **retail stores, exhibitions, shopping malls, showrooms, museums, and promotional events**.
- ✓ **Full metal structural design**, offering strong resistance to radiation, magnetic fields, and electrical interference.
- ✓ **Energy-efficient design** with optimized power consumption for long-term operation.
